Soulful & Sensual...

Chad Saaiman is South Africa's most honest, intimate and talented vocal discovery in years. A soulful and sensual singer who stems from the City of Cape Town, Chad performs his debut album "Chasing Melodies" with a sense of maturity and experience that belies his 25 years of age.

"Songwriter, poet and musician - 25-year-old Chad has oodles of talent and heaps of sex appeal" - Channel 24 music

Drawing from strong musical influences such as Maxwell, John Legend, John Lennon and Stevie Wonder, Chad is at once at home in Soul music while being capable and comfortable across other musical styles as "Chasing Melodies" proves. Sell out gigs across the country and performances along side top artists such as Eddy Grant, Loyiso Bala, Danny K, HHP and Claire Phillips prove that Chad Saaiman is a brightly rising star in South African and International music.

"Absolutely riveting to watch, with timeless music and a golden voice"

After signing with StereoType Records in 2008 where he recorded his debut album - "Chasing Melodies" - Chad has been performing to sell out crowds and featured in numerous print publications (Cosmopolitan Magazine, The Cape Times, Glamour Magazine, etc) as well as television appearances on Hectic Nine9 and Pasella.
